DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick Sheldrake on 9/23/2010. The complete substance of the interview consisted of discussing the art of record to arrive at the agreed upon specification and claim format detailed below. There was no exhibit or demonstration. In accordance with MPEP §713.04, since a complete record of the interview has been incorporated above in this examiner's amendment, no separate Interview Summary form is required. Nor is applicant required to supply any Interview Record in response to this Office Action.

The specification has been amended as follows:

Paragraph [0018], lines 2-3, "of the self-propelled excavator and attached to its frame 3" has been replaced with --and attached to frame 3 of the body of a self propelled excavator--.

The claims have been amended as follows:

The entire text of claim 6 has been replaced with

--A construction machine comprising:

a machine body;

a first boom component having a first end rotatably mounted to the machine body by a pivotal connection;

a second boom component articulated to a second end of the first boom component by a bearing, the bearing having a bearing tube with an internal and external diameter;

a pin extending in the direction of a swiveling axis of the bearing and received in the bearing tube, wherein the pin has outer ends protruding from ends of the bearing tube;

an adjustment cylinder connected to at least one of the outer ends of the pin, the external diameter of the bearing tube being greater than an external diameter of the pin; and

the first component and the second component are both located alongside each other on the external diameter of the bearing tube, the adjustment cylinder selectively transmitting a force to the pin through a connecting boss for rotating the first boom component with respect to the pivotal connection and rotationally displacing the bearing with respect to the pivotal connection, the displacement of the bearing rotating the second boom component with respect to the pin and first boom component.--

Claim 9, lines 7-11, "and third component having an adjustment cylinder and a second pivotal connection connected to a second adjustment cylinder, wherein the second boom component is rotatable with respect to the first boom component and pin by movement of either cylinder" has been deleted.

Claim 10 has been canceled.

Claim 13, line 1, "The construction machine of claim 10" has been replaced with --The construction machine of claim 6--.

Claim 13, line 4, "the frame." has been replaced with --the machine body.--

Allowable Subject Matter

Claims 6-9 and 11-13 are allowed. The following is an examiner's statement of reasons for allowance:

- The examiner's amendment above amends claim 6 to substantially include the limitations of claim 10 (now canceled) which were noted as being allowable in previous Office Action mailed 6/25/2010.
- The prior art does not anticipate all limitations of claim 6 as amended above.
- The prior art does not provide any teaching, suggestion or motivation to modify the prior art as such.
- There is no cogent reasoning that is unequivocally independent of hindsight that would have led one of ordinary skill in the art at the time the invention was made to modify the prior art to obtain the applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor MacArthur whose telephone number is (571) 272-7085. The examiner can normally be reached on 8:30am - 5:00pm.
